The Law Regulating Newspapers and Periodicals.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.

2. If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid; the subscribers are responsible for all the numbers sent.

3. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills, and ordered their papers discontinued.

4. The Courts have decided that a refusal to take a newspaper or periodical from the Post Office without notifying the publisher, and the payment of all arrearages, is prima facie evidence of fraud.

5. Subscribers to newspapers or periodicals removing, are liable to pay so long as the paper or periodical may be sent to the residence of the party at the time of subscription, unless notice is sent of such removal to the publication office.

American & Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington, (under the Act of 1836.)
76 State Street, opposite Kilby Street,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The last months below given prove that none is *more successful at the Patent Office* than the subscriber: and as *success is the best proof of advantages and ability*, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved in centers.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office EDMUND BURKE, Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me TWENTY applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on twice rejected applications *SIXTEEN APPEALS, EVERY ONE* of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY.
Boston, Dec. 9, 1861.—3awosly.

Blackwood's Magazine,
AND THE
BRITISH REVIEWS!
Great Inducements to Subscribers!
PREMIUMS AND REDUCTIONS!!

L. SCOTT & CO., *New York*, continue to publish the following leading British Periodicals, viz

1. The London Quarterly, (Conservative)
2. The Edinburgh Review, (Whig)
3. The North British Review, (Free Church.)
4. The Westminster Review, (Liberal)
5. Blackwood's Edinburgh Magazine, (Tory)

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hurried written newspaper, crude speculations and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great politics. Interests of the time shall have passed away. It is to the Periodicals that readers must look for the only reliable intelligible and reliable history of current events and as such, in addition to their well established literary, scientific and theological character, we urge them upon the consideration of the reading public.

The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, inasmuch as they can now be issued in the hands of subscribers about as soon as the original editions

The Nos of the same Periodicals for 1861 will be furnished complete, *without additional charge*.

Unlike the more ephemeral Magazines of the day these Periodicals lose little by age. Hence a full year of the Nos for 1861, may be regarded nearly as valuable as for 1862.

Subscribers wishing also the Nos for 1861, will be supplied at the following EXTREMELY LOW RATES:

THE NEWYORK TRIBUNE.
LARGE PREMIUMS.
TO OUR FRIENDS.

Hitherto we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues circulated in their respective neighborhoods should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season only—in view of the hardness of the times and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgment—not as much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether original or renewals) to our Weekly and Semi-Weekly editions. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ensuing, shall send us subscriptions and payments for THE TRIBUNE as follows:

Daily Tribune—$8 per Annum.

Week.y Tribune

For $12,	Eleven Copies Weekly Tribune *address to each subscriber*, and Pen or Pens and Cases, to value of	$1 00
For $10,	Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases, to value of	$1 00

For $100 00,	Fifty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases, to value of	30 00

$2 25 each will be required in all cases where the paper is to be addressed to each subscriber.

The Pens will be of the manufacture of A. Morton, whose make we are using, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's price list in The Tribune. See Advertisement headed "The Pen is Mightier than the Sword," and be particular and specify the number and quality of the Pens or Pens and Cases preferred.

I SAY IT, not boastingly, *but it is a fact*, and any one who will take the trouble to visit my establishment will be convinced of the truth of the statement

Boots and Shoes.

My assortment of Boots and Shoes cannot be surpassed by any store in the State. I have constantly on hand, and am manufacturing, all the varieties of *Ladies, Misses and Children's SHOES and GAITERS*, also, *Men's Wear* of every description. All work manufactured in my own establishment is made on the

Plumer Patent Anatomical Last,

the principle of which is well known. I have manufactured for the last twelve months on the "Patent Last," and am convinced that a vast deal of human suffering might readily be saved by those who have corns and bunions and the inferring advantages which can be most sincerely appreciated by those who suffer from tender feet.

To Officers and Soldiers!

Every Officer and Soldier should have his Boots or Shoes made on the "Plumer Patent Last." A soldier can travel further in a day, and with less fatigue, the natural arches of the foot are properly supported, and their development is favored, so as to produce a firm and elastic tread. Try them, and you will be convinced.

FURS—FURS.

LADIES, now is your time. I have on hand the *Best Assortment* of Fur Goods ever offered in this city, viz

Cloaks, Capes, half Capes quarter Capes, Victorines, Collars, Muffs, Cuffs, &c., &c., all manufactured in the best manner, and the workmanship is not to be surpassed. I can show you the

It broke in triumph Treason's shroud!

Col. Smart's Resolutions—The Practical Question.

The main point in Col Smart's resolutions—in fact, the only practical point of much importance—is the proposition to confiscate the slaves of rebel masters As to arming the negroes, our government would not probably do it to any considerable extent, unless it was necessary for the salvation of our armies, or for the success of our expeditions But even if large numbers of negroes were armed and attached to our forces would not the course be more "humane!" than to let them run riot throughout the southern plantations, exciting insurrections among the slaves who were not yet freed, and carrying fire and blood through the land? Those who look with so much horror upon the idea of attaching the negroes to our armies, and thus keeping them under control, have not, perhaps considered what will be the condition of things in the South, after some hundreds of thousands of slaves have been liberated by the advance of our armies and the running away of the masters Will it be better to arm and discipline such of the men as we cannot otherwise employ, or to let them pursue a course of pillage and bloodshed? We have no fears on this score of arming the slaves It may be done or not, as varying circumstances shall indicate to the government or to our generals in the field

The main point, as we said before, is to have an open, unmistakable policy of confiscation of the slaves of rebel masters It can be constitutionally done—and no slaveholder who is a true hearted Union man can or will complain Such a policy, and such a declaration of it, is not only important as a means of weakening the rebellion, by taking away from it the vital and which it derives from slave labor—but it is in a far higher degree important in its effect upon the slaves themselves It has been asserted and we have no doubt truly that the leaders of the rebellion, when their case becomes utterly hopeless, will resort to the expedient of themselves *promising* the slaves their freedom, upon condition that they will fight faithfully and successfully for the cause of "southern independence" The men who have led off this stupendous treason against our government are quite capable of adopting this course, when fairly driven to bay They are now desperate men, and would resort to any expedient to save their necks from the halters they have so richly earned How can we ward off the fatal effect which such a policy would have upon the Union cause, unless we first obtain the confidence of the negroes, and make them believe that we are their only true friends? This we can do, and simply by giving them to understand that as fast as the armies of the Union advance, the slaves of rebels shall become free, and will be protected in their freedom. Some Republicans oppose these confiscation resolves from a belief that they are against the policy and wishes of the administration—but we have an idea that such will in the end find they have entertained a mistaken notion Nothing is more certain than that confiscation has been made the rule, in *practice*, at every point—and even the arming of the slaves has been allowed in the case of Jim Lane's Texas expedition, if the General shall see fit to do it

Burnside's Expedition, if it has safely weathered the storms, will probably turn up at Newbern, N C, or Bull's Bay, S C A return is on the river Neuse, at the head of an arm of Pamlico Sound, fifty or sixty miles from Hatteras Inlet, and if taken, railroad communication and supplies will be cut off from the important point of Beaufort, N C, commanding the lower entrance to the Sound Bull's Bay is about 30 miles north of Charleston, and has communication by inland channels nearly to Charleston itself. An expedition landing there and acting in concert with a force from Port Royal, on the South of Charleston, could easily take that city.

"Professor" Ira Field, a gymnast of Troy, is suspended by Dr. Winship. He recently lifted sixteen hundred pounds.

Regul. Mail Communications. The Washington Republican states that the rebels in the lower counties of Maryland have resorted to the following device for transmitting intelligence across the Potomac to their friends in Virginia—"A large kite is made, and instead of paper, is covered with oiled silk, so as to render it impervious to water. The tail is formed by folding letters or newspapers together, and tying them with a loop knot—each letter, or perhaps two letters together, forming a bob When the tail is as heavy as the kite can conveniently bear up under, a cord long enough to reach about two thirds of the way across the river is attached, and the kite raised in the air After the kite has exhausted the string, or has reached a sufficient height, the cord is cut, and the concern, gradually descending, is borne by the breeze to the Virginia shore, where the bobs are taken off by those in waiting, and new ones for their sympathizing friends in Maryland tied on in their stead With the first favorable wind, back comes the kite to the Maryland shore, and *vice versa*

By this means large numbers of letters and northern newspapers find their way into Virginia, and the communication between the two shores remains constant and uninterrupted"

West Tennessee is becoming disaffected with the rebel cause, and desires to shake off the fetters imposed upon the people by Davis and his traitor satellites The Trenton (Tenn) Standard of Jan 10, has the following significant paragraph

We regret to say that considerable evidence of disloyalty to the Confederate government has been manifest in some of the counties in West Tennessee since the call upon the militia was made, one county (Carroll) having gone so far, we learn, as positively to refuse to submit to the detail In Weakley county, also, we learn there was trouble on Monday last, which led to the fear *that serious difficulties would occur there* but we understand that matters were settled peaceably and without bloodshed, which was at one time apprehended In McNairy county, however, the disaffection seems to have reached its highest point, as we see from the West Tennessee Whig that *it was found necessary to send troops into that county to arrest some of the authorities, and to send detachments of soldiers into some of the other counties for the same purpose*

The Policy of Gen McClellan

It is generally understood that General McClellan's recent exposition made to the Congressional committee to inquire into the conduct of the war of so much of his views and plans as he deemed prudent to trust to the public, was eminently satisfactory to those gentlemen, who interrogated him for nearly three hours It is said that he spoke fully, in reply to questions frankly pointed out to the committee their impolicy and on each occasion satisfied them that he was right in preferring to keep to himself the particular information they were after It is certain that the result of their interview has been to bring the committee up to the work of laboring to induce Congress to aid Gen McClellan in his measures and pelow with the frank confidence that must be accorded to him if that body would really do their duty to insure the quick suppression of the rebellion, that depends so entirely upon the harmonious concert of action between all branches of the Government service in laboring to work out common ends—More than one of the committee who went into the interview with minds warped came out of it with the fixed belief that the path of success in the war is to stand firmly by the Commander in Chief, and support his measures and plans

Re Union in Heaven How short is the earthly history of a family A few short years and those who are now embraced in a family circle will be scattered The children, now the objects of tender solicitude will have grown up and gone to their respective stations in the world A few years more and children and parents will have passed from this earthly stage Their voices will be no longer heard in their present willing. Their domestic cares and anxieties, hopes and fears will be a lost and forgotten history Every heart in which it was written will be mouldering in the dust And is this all? Is this the whole satisfaction which is provided for some of the strongest feelings of our hearts? How can such transitory beings with whom our connection is so brief, engage all the love we feel? Why should not our feelings grow and then be as fickle and unsatisfactory as they? But blessed be God this is not all Of this he has given us perfect assurance in the Gospel of Son Though to the eye of an unenlightened nature the ties of domestic love seem scattered into the dust, the spiritual eye of faith perceives that they have been severed on earth only to be resumed and in far happier circumstances in the region of everlasting bliss and love Though the history of a family may seem to be forgotten when the last member of it is laid in the grave, the memory of it still lives with immortal souls and when be circle is wholly dissolved on earth it is again complete in Heaven

General McClellan asked General Lane at an interview the other day "Suppose you find no Union sentiment whatever where you go?"—"Then," said Lane "I will take good care to leave no rebel sentiment behind me"

The Charleston authorities talk of building another fort The Louisville Journal calls their attention to the fact that if they want any stone for the purpose they will find an abundance in their harbor

A Second Stone Fleet for Charleston Harbor The second stone fleet consisting of fourteen vessels, left Port Royal on the morning of the 20th inst, for their destination off Charleston They are to be sunk in the entrance of Maffit's Channel, the passage through which the steamer Isabel recently went into Charleston, after eluding the vigilance of the steam frigate Mohican, which was then blockading off that point.

Sunday Battles. The fact will not escape attention that the battles of Somerset and Bull Run both commenced on Sunday, and the assailants in both cases were defeated.

Ship Florence Nightingale, (of Boston) Holmes, at New York from London, reports on the night of 10th inst, during a heavy gale, Francis N Hardingé, second officer, was blown from the foretopsail yard overboard and was drowned—Nov 10, (outward passage) Edward Golden fell from the main topgallant yard overboard and was drowned

The Death of Miss Pickering When so pure a life is removed from among us, as the one of whom we would speak, something more than its simple announcement is demanded while something more than this will naturally and spontaneously arise in the hearts of those who were more intimate in the immediate circle in which she moved.

Mrs Pickering, of whom we write, was in the truest sense a Christian woman Modest, quiet, retiring, gentle, kind and affectionate, it was in the domestic circle where her pure qualities of mind and heart shone with so much brilliancy of tenderness and affectionate love

In that now broken circle is where her departure will be the most keenly felt, and to that bereaved household our thoughts wander, offering them the one consolation—"Let not your hearts be troubled"

The sweet influence of this lady's life was exemplified in being a pure and loving wife, a kind and affectionate mother, a gentle and kind neighbor, and a true friend to the poor, aged and infirm By these her departure will be the more keenly felt, and to them, in the hour of their affliction we offer this tribute to her memory, with the consolation that her life was so long spared after so many years of declining health and severe suffering

Her departure was in keeping with her life—Gently, thoughtfully, carefully and trustingly, her pure spirit passed away, relying on the goodness and mercy of her God

"She came sweet influence to impart" That mission accomplished, she is now in the bosom of her Father, with the loved ones gone before and with Jesus, her Savior and friend

The present stock of cotton in the Maine mills is thus stated—At Lewiston, the great Androscoggin mill has about five months' supply, running on three quarters time, the Bates mill has about the same. All the corporations in Lewiston are reported as having about 4000 bales In Biddeford, the Laconia company has 4500 bales, which as now used will last two years, one mill only being used upon the manufacture of sheetings and cotton flannels. The Pepperell mills have about the same stock but will use it up in nine months as now running In Saco, the York Co have about 2000 bales, and are now using five bales per day In Augusta, the Kennebec Co have about 250 bales The mill in Brunswick has about 170 bales—That in Hallowell has none The aggregate amount in the State is about 15,400 bales, weighing, at an average of 470 lbs to the bale, 7,238,000 lbs

Steam Air Cannon The Baton Rouge (La) Advocate gives the following description of a truly wonderful "steam air cannon," invented by a Louisianian

This invention consists of a locomotive capable of running on common roads, which supersedes horse power in all draft operations, and is adapted to either land or water To this is attached one or more air cannons, which, in view of the present scarcity of powder is a great desideratum, as air can be made more effective than powder, being liable to compression many thousand times less than its bulk These cannon will also have the following qualities to recommend them, viz no report, little if any concussion no heating, and no smoke, all of which proves their great availability, whether placed on board of gunboats or warships, or used on land for river protection, where it would be most serviceable Along the banks of the Mississippi the levees would protect the lower part of the machine, while the upper is secretly in own inclosed planes

The cannon being breech loading, is loaded with great ease and speed, and by being removed from the machine the latter can be applied to making ditches throwing up embankments and can also be used as a fire engine

In the open field it may well be called a flying artillery, as it could run through any ranks either of infantry or cavalry, and open a lane 14 feet wide

An Irishman's Idea of the American Flag In a lecture upon American affairs recently delivered at the Assembly Rooms of the Imperial Hotel, in Dublin, by Col Dahlgren, we find the following eloquent passage

You might think that Irishmen have no right to fight for America but you little know what Americans are to the Irishman He was reared on a hillside here—he was warmed by an Irish sun and nourished on the lump floor—he drained the Irish dew of morning and twilight—he saw every morning one pure round him—he followed the flag which conveyed the wealth of his bosom to the grave and came back for the oldest of his children, and he found at last a resting place. His last thought was of home he wanted to plant a tree where mother had grown, and he uprooted an Irish rose—assure that it would prove in a strange country and in the darkest tree, blushing with shame for his friends and even relatives living in this country

Among his acquaintances was a Miss Chisholm, wife of a planter, who has expressed her appreciation of his patriotism by sending him—what?—a set of expensive coffin handles! with the intimation that the box they were intended to adorn was ready for his reception as soon as he should come that way In order to play this singular joke, the rebel mistress forced one of her trusty slaves, who, finding himself among the Yankees, is confended to remain with them

Frederick II of Prussia, received a petition from one of his districts, praying that a certain clergyman be dispended from preaching because he held that the punishment of the wicked would come to an end The king took his pen and wrote as follows "I have considered the above petition, and do hereby give my royal sanction to all my loyal subjects to be damned to all eternity if they choose it, but I do positively forbid their quarrelling with their neighbors who are not willing to keep their company so long"

A Monstrous Projectile The new rifled gun for the Pensacola carries a 160 pound shell The accuracy of the gun is astonishing Ten rounds were fired on Saturday, and about the same number Monday, and the target, at the distance of 1,800 yards, is torn to shreds. The Ten shots on Saturday, all struck within a circle ten feet in diameter, and those this morning struck within a space five feet in length and four feet in height—*Washington Star.*

Pratt and Wise. Everybody knows Pratt, the "Great American Traveller," as he calls himself He is a harmless genius, who appears in our midst today, and is off tomorrow, but where he will turn up is as much a mystery to his acquaintances as to himself Something seems to be the matter with his brain, for he acts like one who possesses none. When Wise, who is about on a par with Pratt in some things was the governor of Virginia, the Great American Traveller called on him at Richmond and after some delay, obtained an audience It was about the time that the agitation respecting secession commenced in Virginia, so Wise did not feel very good natured towards Northern men

"Who are you?" asked Wise, as the traveller stood before him, and surprised enough Wise must have been at his appearance

"State your views, said Wise, and his large black eyes rolled as though anxious to burst from their sockets

Pratt commenced his harangue and continued it for an hour He mixed up everything that he could think of, but still Wise listened without interrupting him

At length Pratt paused for breath "Have you finished?" asked Wise

"No sir, and once more Pratt commenced and in half an hour he had finished He was out of breath and exhausted Wise had not spoken a word but sat regarding him in dumb astonishment

"Have you concluded?" asked the Governor "Yes I think I have

"Then get out of this house you d—d abolition humbug Move and don't you let me see you in Richmond twenty four hours from the present time

Pratt left the presence of the Governor and soon shook the dust of Virginia from his feet—He has never seen Henry since and to tell the truth, he don't want to, for he swears that Wise is insane, but for all that he is proud of the interview, and often boasts of it

A Teacher's Testimony That veteran teacher Benjamin Greenleaf of Bradford Mass whose arithmetics have been so famous was lately asked how many pupils he had instructed in the fifty years he had been a teacher He replied

I have instructed six thousand pupils—Of which I think have become ministers of the gospel as many more have become lawyers a greater number have become farmers and the balance for aught I have seen or heard have gone to the State Prison two have been hanged—and I think it very likely still

CLOTHING.

GENTLEMEN

Having for the years the fortunes of Tailors doing a credit business and having myself proved that system to be utterly wrong for the Retail Tailoring business feel compelled to adopt the CASH SYSTEM It is better for the customer who expects to pay for his garments as the amount is only added under the credit system is divided between the patrons and the patron red as the former receives it by paying as much as 20 per cent less for their garments and the latter is saved from bankruptcy Consequently I would invite all cash paying customers to examine the Stock of Goods now on hand and see if the prices are not 20 per cent less than at any other Clothing House in the city The Cutting Department is under the charge of

Mr J H LARKIN,

Daily Whig and Courier.

[Dispatches to the Evening Papers.]

News from Mexico — Dissatisfaction among the Allies — Disposition of the Rebel Army—Fire in Quincy Market, Boston—From Missouri—The Kentucky Victory—Consternation Occasioned by it among the Rebels.

NEW YORK, 27th.

Advices from Mexico report the allies greatly dissatisfied with their reception, and accuse Miramon of deception Expecting to find a strong friendly party, they find the population as one man against them, and realize that their present forces are entirely inadequate to the task before them Already an outbreak, attended with bloodshed, had taken place between a French and Spanish regiment. In consequence it was determined that the French forces were to land at Tampico, where according to previous advices, resistance would be made—the English at the same time to attack Matamoras The allies already differed among themselves on a number of trivial points and the relative position of their flags had been changed three times.

Recent intelligence leads to the belief that most of the rebels directly in front of Washington are housed between Bull Run and Manassas, and it is believed that a large portion of the rebel army of the Potomac are distributed upon the lines of railroad converging at Manassas

The Times's despatch says that Reynolds, the agent sent by the Secretary of the Treasury to Port Royal had a long interview with Secretary Chase last night He says he has already secured about a million dollars worth of cotton He has now in his employment about 3000 negroes, who are at work on different islands gathering cotton They are badly clothed, and one of the objects of his mission is to procure 3000 or 4000 suits of clothes He also wants four or five good physicians He says the negroes work very well, and attend to their labor properly

A rebel deserter says ten regiments have gone south, but the position of the main body of the rebel army is unchanged The rebel line of defence extends about sixty miles. They expect a most sanguinary battle at Centreville

BOSTON, 27th.

Fire broke out this morning in Quincy Market, in the story over the stalls, which proved very disastrous to nearly all the occupants of the market, by the flames, smoke and water Very few of them were insured Nourse, Mason & Co, dealers in agricultural implements, seeds, &c, located over the market, were damaged $20,000—fully insured The entire market building, which is owned by the city, was greatly damaged Total loss estimated at $50,000

ROLLA, Mo, 26th

A prominent citizen of southwestern Missouri arrived from Mount Vernon, Lawrence county, says that General Raines, with about 400 men, stayed all night, Tuesday, 15th, at Mount Vernon, on their way to Granby, where the soldiers, it is said, were going to work in the lead mines

In regard to the number of troops in northern Arkansas, he says that he has it from good authority that there are only 500 or 600 at Cross Hollow and Cave Hill in Benton county, but a body of from 2000 to 3000 men were at Tilsorth Bend, about fifty miles below Van Bergen, on the Arkansas river Several secessionists told him that Price's force at Springfield did not exceed 10 000 This gentleman met the scouts of the Federal army four miles beyond Lebanon, and other troops at different points this side

BALTIMORE, 27th

A Richmond despatch of Friday shows that the rebels are much perplexed at their defeat in Kentucky

The Dispatch says, we regret to say that the report of the Federal victory in Kentucky, received to us on Wednesday night from Northern sources, is more than confirmed by intelligence received here at the War Department It appears that our defeat was more decisive than even Northern accounts led us to believe

The editor says "This disaster, and the apprehension it has caused for the safety of our connection with the southwest through Virginia and Tennessee and the East Tennessee and Virginia Railroad, and the possible interruption of our intercourse with the South via Wilmington and Weldon railroad by Burnside's expedition, direct attention to the vital importance of completing the connection between Richmond and Danville and the North Carolina road"

The Dispatch contains a telegram from Norfolk, that the Baltimore South contains a statement that a report had reached Baltimore of a loss of five vessels of the Burnside fleet in Pamlico Sound

FROM WASHINGTON.

Investigating Committee make their Report.

General Sigel Will Continue in the Army.

Another Vessel Runs the Potomac Blockade

Constitutional Convention of Western Virginia.

WASHINGTON, 27th

The resignation of Gen Sigel not having been accepted, his military ability being highly appreciated, he will not renew it As a strong friend of the Union, he will continue in the service where he can be of the most use, either in Missouri or on the Potomac A series of events prompted him to retire from the army, but the more recent cause of complaint, it is believed, will be remedied

Gen Don Domingo de Goicouria from New York, arrived here today on important business from the Mexican Government

Advices from the city of Mexico, from distinguished sources, confirm the published accounts of the union generally of parties heretofore opposed to each other—making common cause against the European invasion

The Sanitary Commission has had several conferences recently, both with the War Department and the Military Committee of Congress relative to a reorganization of the Hospital Department It appears they desire the selection of officers of the regular medical staff shall be made more with regard to efficiency than to the prevalent usage of seniority The Commission say they are acting on the principle that it is better to take precautionary measures against sickness in camp, than to fill the hospitals

The Committee on Lake Defences, of which Representative Arnold is Chairman, have been delayed in their action by the sickness of Gen McClellan, but since his recovery, they have been placed in possession of his views and opinions They are now awaiting a detailed estimate from Gen Tollen, but will before long, make a full report with regard to the defences of the Northern frontier

It is understood that the Senate today in secret session decided the following point, viz that a confirmation of the sidesadecamp of major generals is not necessary, for the reason they are in the nature of temporary appointments, and may be made by the President on the recommendation of any major general, without the concurrence of the Senate. According to the act of August last, more than fifty aides de camp have been submitted for confirmation

The President has approved the bill repealing the provisions of a law which exempts witnesses who have been examined before an investigating committee of either House of Congress from testifying before a Court

The bill introduced by Mr Colfax today relative postage rates on printed matter, is not a final draft, but has been referred to the Postoffice Committee for further consideration

Lieut Colonel Jordan of the New York 10th Legion, was tonight presented by the officers of 14th Brooklyn regiment, of which he was formerly Major, with a splendid sword, sash, boots, spurs, gauntlets, etc

The non commissioned officers and privates of the 531 Penn Volunteers, presented Col Brooks and Lt Col McMichael with beautiful and costly swords

The Senate today confirmed the nomination of B B French as commissioner of public buildings

General Keim of Pennsylvania, recently appointed a brigadier general, has been assigned to a brigade in General Casey's division in the army of the Potomac

Captain Gregg, of the United States army has been appointed colonel of the regiment of Pennsylvania cavalry formerly commanded by Colonel Chantry

WASHINGTON 27th

The repairs to the Island Belle were completed at the Navy Yard on Saturday, and, taking on board Gen Stokles and some officers of his brigade she ran down passed the rebel batteries on Saturday night without being fired at, and, after landing her passengers at Liverpool Point, lay by until Sunday night, when she returned to Indian Head On her up trip six shots were fired at her by the rebels, but none took effect The rebels appeared to be enlarging and strengthening their works at Cockpit Point, as if to make the Occoquan the main line of defence on the right wing

WHEELING, Va., 27

In the Convention today, Mr Battelle of Ohio county, offered the following proposition relative to slavery in the new State—

No slaves shall be brought into the State for permanent residence, after the adoption of this Constitution All children born of slave parents in this State after the 4th of July, 1865, to be free and the Legislature may provide by general law for the apprenticeship of such children during minority, and for subsequent colonization

The above propositions were referred to the Committee on General Provisions, which Committee will probably report some day this week It is not expected that the Committee will report any provisions of the above character the majority being adverse to the consideration of slavery, but it is thought that when they make their report, a proposition embodying the sentiments of the Free State men will be brought forward, and will be, from present indications, fiercely contested

NEW YORK, 27th

Special despatches from Washington say that the Congressional investigating Committee made their report today, through the Chairman, Mr Potter Charges have been investigated against over 80 persons The most important case is that of Lieut Col Magruder Assistant to the Chief of Ordnance, who, it is alleged, abetted Floyd in his treasonable robbing the Government of arms, etc Paymaster Dodge proves to be a secessionist Lloyd Harrison, first lieutenant in Sherman's battery, is a secessionist Wall, late Gardener at the White House is a secessionist

Senator Harlan's report from the Naval Committee, censures Secretary Welles and Mr Morgan, and concludes that the $70,000 of the public money now in the hands of the latter, belong to the Government, and shall at once be returned to the National Treasury, and reasonable compensation be paid him for his services

NEW YORK, 27th

Special despatches from Washington say that Gen McClellan will appear before the special Congressional Committee on Western Harbor Defences, on Wednesday

The House Committee on Agriculture will probably report in favor of establishing an Agricultural Bureau in the Patent Office,

NEW YORK, 27th.

The aggregate insurance on the loss by the regent fire is over a quarter of a million

The 7th N H Regiment, now here, is ordered to Tortugas, and will leave soon. It is believed other regiments will follow.

The 76 N. Y. Regiment is under marching orders—destination not stated.

BRIDGEPORT, Conn, 27th, 3 P M

WASHINGTON, 27th

SENATE.

Petitions in favor of emancipation for a national armory at Springfield, O, and Indianapolis, and against all further traffic in public lands, were presented, also a memorial from the New York chamber of commerce in favor of the continuation of the coast survey

Mr Hale, from the Navy Committee reported in relation to the answer of the Secretary of the Navy to the resolution in regard to the Morgan contracts

Mr Wade offered a joint resolution empowering the census superintendent to collect such war statistics as in the judgment of the Secretary of War, is right and proper Amended so as to read, that he be authorized to furnish the Secretary of War such statistics as are necessary for the use of his department Passed

Mr Hale offered a resolution as to the cost of the ships Pennsylvania and Alabama, and whether they are fit for sailing vessels or can be made into steamers Laid over

Mr Wilson introduced a bill for the more effectual suppression of the slave trade Referred

Mr Wade called up his resolution making it incumbent on either branch of Congress to go into secret session to consider matters from the government pertaining to the suppression of the rebellion, &c

Mr Wade modified the resolution so as to strike out the limitation of speeches to ten minutes

Mr Sumner offered an amendment, that the question of going into secret session shall be submitted to the body in which it is proposed, and if a majority so decide, it shall go immediately into secret session without debate

After a debate the resolution was modified, so as to read, that when any member makes a motion to go into secret session, the doors shall be closed, and the member states his reason and the majority shall determine whether they will continue in secret session

The subject was then postponed

The case of Mr Bright was then taken up

Mr Latham opposed the expulsion of Mr Bright, contending that public opinion at the time of his writing the letter was different from what it is now He enforced his position at great length

Without taking action upon the question, the Senate went into executive session

Adjourned

HOUSE

Mr Watts, delegate from New Mexico, introduced a bill in aid of the construction of a military road west of the Missouri river, by Fort Leavenworth and Riley to Denver City Referred to the select committee on the Pacific railroad

Mr Colfax of Indiana introduced a bill to render more uniform the postage on printed matter Referred to the Post Office Committee He said, in explanation, instead of three hundred rates now existing, it provided for three on newspapers of less than three ounces in weight, and on which postage is now chargeable by law, five cents per quarter for weeklies when carried less than 2000 miles, ten cents for semi weeklies, &c, according to the number of issues per week, on magazines and periodicals half a cent per ounce, on books and other matter sent through the mails one cent per ounce, over 2000 miles, double postage Mr Colfax explained the simple features of the bill

The House went into Committee of the Whole on the West Point Academy appropriation bill

Mr Menzies of Kentucky spoke against emancipation and disunionists

Mr Biddle of Ohio enlarged on slavery and the war, contending that there was ample power within the limits of the Constitution for changing the personal status of the slaves and he would confiscate the property of rebels and declare their slaves free

Mr Sheffield of Rhode Island said he was not surprised, after the announcement that Congress had the power by a single enactment to emancipate the slaves of all the slaveholding States to hear the principle asserted, that in a certain contingency, Congress has the power to set up a dictator to control the government He said that slaves were property, and we cannot take property without due process of law The Constitution must be taken as a whole, and not in detached parts. We have no right to transect the President any more than he has a right to instruct Congress The powers of Congress end when the armies are in the field then the President is at the head of them, and the laws of peace give way to the laws of war A state of peace is inconsistent with a state of war He had no doubt that the President, in marching an army into an enemy's country, has a right to order the capture of the personal property of rebels But he would not undertake to legislate rebellion down, he would put it down by the only way it could be put down, namely—fighting, and after the war is over, he would act in the best light in reference to a case he should then have, but he believed that Congress had nothing to do with the question

The debate here closed

The military academy bill was reported to the House, and passed

The executive appropriation bill was taken up.

Mr Conkling of New York offered an amendment, that no provision in the bill shall be construed as giving authority to any Senator or Representative to receive more than two mileages for this Congress

The Chair ruled it out of order, as independent legislation

Without taking action, the House adjourned

COURAGE INVALIDS!

HOWES' COUGH PILLS,

—AND—

Clem's Summer Cure.

By the concurrent testimony of many sufferers, the fact has *been established*, that our Coughs, Hoarseness and Bronchial affections, there is no remedy extant that so universally affords relief as

HOWES' COUGH PILLS.

That for a Tightness or Wheezing on the Chest, pains in the side, or a long standing *Hack* the best known remedy is

HOWES' COUGH PILLS.

That as an expectorant and ameliorating agent in cases of Phthisic Whooping Cough, and Confirmed Consumption, the public have already rendered their united verdict in favor of

HOWES' COUGH PILLS.

That for Children Cutting Teeth if troubled with Diarrhea or any irregularities of the Bowels all other remedies are insignificant as compared with

CLEM'S SUMMER CURE

That for Children troubled with Canker in the mouth or stomach, or mothers suffering from nursing sore mouth, a safe and speedy cure is effected by the use of

CLEM'S SUMMER CURE

That for the cure of Diarrhea or Dysentery in persons of all ages no medicine has ever done to the knowledge of the public that so effectually does its work and at the same time leaves the bowels in an active healthy condition as

CLEM'S SUMMER CURE.

Clem's Summer Cure is a pleasant agreeable decoction of roots and barks, and contains not a particle of opium or *drug* of any sort It always does good, and never does harm By their works ye shall know them

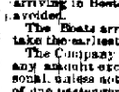
Franklin House,

Harlow Street, Bangor, Maine.



This well and favorably known Hotel, having the past season been enlarged, remodeled and refurnished, has now all the appointments of a first class Hotel.

Dr. Stephen Sweet, of Connecticut, the famous Bone setter, and has been used in his practice for more than twenty years with the most astonishing success.

AS AN ALLEVIATOR OF PAIN it is unrivalled by any preparation before the public, of which the most skeptical may be convinced by a simple trial.

This Liniment will cure rapidly and effectually, RHEUMATIC DISORDERS of every kind, and in thousands of cases where it has been used, it has never failed to do all we claim for it.

For NEURALGIA, it will afford immediate relief in every case. However distressing.

It will relieve the worst cases of HEADACHE in three minutes, and is warranted to do it.

TOOTHACHE also will it cure instantly.

For NERVOUS DEBILITY and GENERAL LASSITUDE arising from imprudence or excess, this Liniment is a duel balm, and unfailing remedy.

Acting directly upon the nervous system, it strengthens and revivifies the system, and restores it to elasticity and vigor.

FOR PILES—As an external remedy, we claim that it is the best one ever used, and we challenge the world to produce an equal. Every victim of this distressing complaint should give it a trial, for it will not fail to afford immediate relief, and in a majority of cases will effect a *radical* cure.

QUINSY AND SORE THROAT are sometimes extremely malignant and dangerous, but a single application of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate and an large share of the joints is liable to occur in mechanics, the worst case may be conquered by this Liniment in two or three days.

BRUISES, CUTS, WOUNDS, SORES, ULCERS, BURNS AND SCALDS, yield readily to the wonderful healing properties of *DR. SWEET'S INFALLIBLE LINIMENT*, when used according to directions. Also, CHILBLAINS, FROSTED FEET, and INSECT BITES AND STINGS.

Every Horse Owner

should have this remedy at hand, for its timely use at the first appearance of lameness will effectually prevent those formidable diseases, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

Over four hundred testimonials to the wonderful curative powers of this Liniment have been received within the last two years, and many of them from persons in the highest ranks of life.

CAUTION.

To avoid imposition, observe the signature and likeness of Dr. Stephen Sweet on every label, and also "Stephen Sweet's Infallible Liniment" blown in the glass of each bottle, without which none are genuine.

BOOTS AND SHOES

MADE ON

PLUMER'S PATENT ANATOMICAL LASTS!

[From J. V. C. Smith, M. D., formerly Mayor of Boston.]

PLUMER'S PATENT BOOTS.

The Undersigned has worn a pair of these Improved Boots, which I have worn during the past winter, and only wonder that the world should have been so stupid as not to have made the discovery half a century ago. Any one with a grain of common sense and a moment's reflection, cannot fail to see that your "PATENT BOOTS AND SHOES" are *perfectly adapted to the foot* (that wonderful piece of *Nature's Mechanism*) giving to *every portion* of it a *firm and equal support*; and I am sure that those who once make trial of your new invention will never go back to the old fashioned boots or shoes which are so prolific of Corns, Bunions, and a thousand other troubles. Your "*Patent Heel*" seems to be part and parcel of our *Physical structure*, supporting the body with *easy steadiness to the gait*, and promoting health and comfort to an eminent degree, especially in walking over rough surfaces.

I wish I knew, some means by which I could make known to every man, woman and child in Christendom, the great importance of your invention.

Very truly yours,

MORRIS MATTSON, M. D.
Commercial street.

Boston, July 12, 1861.

DR. PLUMER—

Dear Sir: Having learned the principle upon which your "Anatomical Lasts" rest, I feel largely interested as to its efficiency, in relieving a difficulty which all have experienced, who have to walk considerably, viz: some pain in the feet after much walking. After having worn the boots made upon the "Anatomical lasts," I found my anticipations more than realized. I can walk nearly all day without experiencing the slight difficulty in the least degree. I also escaped the torturing process of breaking in my boots, for they were as easy at first as after they had been worn.

Truly Yours, C. H. BURBANK, M. D.
Corner of Congress and Temple Streets.

I have been engaged for over six months in the manufacture of Boots and SHOES on the

"Plumer" Patent Last

with decided success. Experienced workmen are employed, the BEST stock used, and a perfect fit guaranteed.

PROF. WOOD'S

HAIR RESTORATIVE

AND

BLOOD RENOVATOR.

This celebrated preparation is the result of long and laborious research, and is the only one which has ever been presented to the public which can with truth be called a Hair Restorative. It is not a dye, but a healthy stimulant, which imparts to the hair its original color and beauty, by restoring to the roots the secretion which has become exhausted by the attacks of time, or by the ravages of disease. It is not a mere temporary preparation, but a permanent restorer, which will last for years, and which, when once used, need not be repeated except at long intervals, and then only to keep the hair in the color and condition to which it has been restored by the first application. It is not a mere dressing, but a thorough renovator of the hair, which it invigorates and renders healthy and vigorous. It is not a mere fashionable hair dye, which may be used for a time, and then left off, to the injury of the hair, but it is a thorough renovator, which will last for years, and which, when once used, need not be repeated except at long intervals, and then only to keep the hair in the color and condition to which it has been restored by the first application. It is not a mere dressing, but a thorough renovator of the hair, which it invigorates and renders healthy and vigorous. It is not a mere temporary preparation, but a permanent restorer
